## Work Experience

### Full-Stack Software Engineer

Aug 2014 - Current

Early-stage startup that provides virtual 1-on-1 personal coaching designed to give clients a running start at building a new life-changing habit.

*Technologies Used: React, React Native, Rails 5, ActionCable, BackboneJS, PostgreSQL, Redis, HTML/CSS, Sass, BackboneJS, MarionetteJS, Mixpanel, CoffeeScript*

- Constructed client-side architecture and led the development of consumer facing pages.
- Collaborated side-by-side with product owners to ensure features provided highest business value
- Established framework for tracking user actions using Mixpanel and Google Analytics for segmentation and funneling.
- Worked closely with designers to ensure pixel-perfect development as well as constructing clean and maintainable APIs.
